

GAS CO SELLS OUT

T. R. G. E. Company Takes in the Last Opposition in This City and Now Controls Both Electric and Gas Supply

The last vestige of opposition to the Truckee River General Electric company was wiped out this morning when Pres. Fleishacker and Superintendent Broili closed a deal with the Carson City Gas company for their entire plant, pipe lines and all.

It has been known that the Gas company was willing to sell out as long ago as August. At that time certain parties were inquiring as to the feasibility of taking over the plant and some talk was indulged in; but the matter was dropped. The T. R. G. E. company have tried before to come to some agreement with the gas company on a basis for purchase, but up to the present had not been successful.

The Appeal is in a position to say that the company sells on the basis of about 50 cents a share for their entire holdings. The electric company was willing to take the plant just as it stands, each to sign clear of obligations when the papers are made ready.

The new owners will continue to operate the plant and Superintendent

Wylie will remain for an indefinite period, as he is regarded as the best man for the place that could be found. For years Superintendent Wylie has operated the gas works and there has been no complaint from the consumers as to his management.

Neither of the T. R. G. E. officials would say today whether the rates will be affected by the deal or not. This city uses a large amount of gas for a place this size and the problem of fuel has become one that is more than serious.

The electric company plans a number of extensions that will eventually among the stockholders of the gas work of power lines. Pipes are being unloaded and made ready at Dayton for the Yerington extension. The company has decided to go into Ramsey district and branch lines will be extended from Gardnerville as fast as contracts can be made for them.

Among the stockholders of the gas company who have disposed of their holdings are: T. J. Edwards, Mrs. Fay, Jay, Judge, the Buckel estate, George Meyers and minority stockholders.

THE ENORMOUS OUTPUT OF NEVADA MINES

"Nevada's the coming mining state of the Union," was the assertion made in an interview by J. H. Nevin, bullion tax collector for the state. Although the report of the office," continued Mr. Nevin, "will not be ready for publication before January 1, I can say that the net output of mineral wealth will be larger than at any time since the Comstock days. The output for the year has been tremendous, being considerably greater than \$2,000,000. This does not include the ore on the dumps, in which there are millions of dollars, neither does it include the lower grade ores. The estimate is made only on the high grade ores.

"Only four counties of the state have contributed to this enormous output—Storey, Nye, Lyon and Esmeralda. I predict that next year ten of the fourteen counties will be adding to the net output. These counties are now producing ore, but the profits are being used for further development. The state has never been more active or prosperous. Capital is taking hold and daily the history of Nevada, from a commercial standpoint, is just to be begun. The next few years and for many years to come, as the surface is not scratched, are bound to exceed in output the old Comstock days during the palmiest period."—Tonopah Sun.

THE WESTERN MOUNTAINS ARE BEAUTIFUL

A beautiful sight greeted the eyes of the comparatively early riser this morning. Just as the sun arose the mountains west of town took on a rosy tint that contrasted vividly with the white garments they are now wearing.

Along the crest of the ridge the pine trees stood like sentinels clad in white, the pogonip having fastened itself securely to their trunks and branches. Truly the scene was one fit for the brush of any artist.

DEATH OF O. T. BARBER IN RIVERSIDE

Word was received today of the death of O. T. Barber at his home in Riverside, California. No further particulars were received.

Oscar T. Barber was a member of the State legislature from Storey county many years ago and while here met Miss Callie Ferris who after wards became his wife. Later he removed to this city where he conducted a mercantile business in connection with George Gillson, the firm erecting the stone building opposite the Arlington.

Mr. Barber built the handsome residence now occupied by Judge Belknap and family and the Barbers resided there until their departure for southern California. He was successful in most of his undertakings in Riverside and died possessed of considerable property there.

He leaves to mourn his loss a devoted wife, two sons and a daughter. He was the brother-in-law of Mrs. Margaret Dangberg, Mrs. C. M. Schulz and Mrs. A. M. Ardery of this city.

AN IMPORTANT SUIT

Whether Deputy United States Mineral Surveyors, who are not permitted by the rules of the Interior Department to locate mining claims, can sign location notices as witnesses, is an interesting point upon which hangs an important suit that has been filed in the District Court of Churchill county. Miss M. A. Gilkerson located a valuable claim in the Fairview district, and H. C. Gilkerson, her brother, who is a deputy mineral surveyor, signed the location notice as a witness. William H. Mays jumped the young woman's claim, declaring that Gilkerson had an interest therein and further that inasmuch as he signed the location notice as a witness the location is invalid. Mays is suing for possession of the property.
